LOSE LITTLE DAUGHTER

Bright Little Daughter of Mr. and Mrs. T. Hughes Atkinson Dies at Louisville.

Ruth Allen, the bright and winsome little four year old daughter of Mr. and Mrs. T. Hughes Atkinson died at a Louisville hospital Monday night after several weeks' illness of meningitis.

She was the only child of the home and was an exceedingly lovely and precious child and her parents have the sympathy of the entire community in their sorrow.

Funeral services will be held today (Wednesday) immediately after the arrival of the C. & O. train at 12:44 at the grave in Machpelah cemetery conducted by Rev. Clyde Darsie, of the Christian church.

SHEEP-KILLING DOGS

Ben F. Perry had 10 fine Southdown ewes and 15 lambs killed by dogs Friday night at his farm on Spencer. Two dogs not known in the neighborhood did the work. One dog was killed but the other escaped.

IMPORTANT LECTURE

On Thursday afternoon at two o'clock Professor C. R. Melcher, of State University, will deliver an address in the High School Auditorium, his subject being "European Institutions of Learning." Professor Melcher is thoroughly familiar with American educational affairs, having taught in the elementary school, served as Principal and Superintendent of city schools, Principal of a private denominational school and is at present President of the Board of Education of Lexington and Professor of Modern Languages in the University, all of which peculiarly fitted him to make a thorough study of the institutions of Europe which have for their aim the education of humanity.

The friends and patrons of the Mt. Sterling schools are indeed fortunate in having an opportunity of hearing so noted a speaker.

DAMAGED GOODS

It has been the history of civilization that our greatest advance has been the direct outgrowth of great wrongs or of oppression. Eugene Brieux, author of "Damaged Goods," suffered such a wrong and out of it grew a great good to the French stage. At the time that "Damaged Goods" was produced in Paris in 1900 there was a censor of the drama of France, and he exercised his legal right in suppressing the sermon play after one performance. The great sociologists and physicians of the nation raised such a storm of protest at this injustice that the doom of the French Censor was sealed and shortly thereafter it was abolished.

This great play will be seen in Mt. Sterling at The Tabb Tuesday, April 6th.

ENGINEER HERE

Mr. R. E. Toms, government engineer, from the Department of Public Roads, Washington, D. C., arrived here Sunday and is preparing to begin active work upon the Maysville turnpike. We are informed the government will repair that portion of the road which has shown material deterioration during the present winter.

MUCH GOOD FROM MARKET

Merchants Should Make it a Point to Boost the Warehouses in this City.

The loose leaf market which just closed in this city has proven of great benefit to our merchants. Many people came to our city from other counties with their tobacco and hauled home merchandise and many of these men would not have come here if it had not been for the warehouses. Every merchant should boost the warehouses to their customers and especially those who live in other counties. A glance at the figures will show the immense amount of money paid out by the warehouses. We have heard considerable discussion as to the amount sold here and the averages obtained etc., and for the benefit of our subscribers we publish below the signed statements of the secretaries of the four houses. As will be noticed, the Farmers house, which is the largest in the city lead with the greatest number of pounds sold while the Whitehall ranked second and succeeded in obtaining the best house average.

Farmers House

The following will give you the information you requested of me and it affords me pleasure to submit same to your paper for your reader's consideration: Pounds sold 5,496,450; amount of money produced \$444,322.97; average per 100 pounds \$8.08.

S. S. PINNEY, Secretary.

Whitehall House

As per your request I hand you herewith statement showing the number of pounds of tobacco sold on the Whitehall floor with the amount of money same brought and the average of the entire sale: Pounds sold 3,488,330; amount money produced \$285,604.18; average per 100 pounds \$8.18.

H. W. LOCKRIDGE, Secretary.

Robertson House

I hand you herewith statement showing the amount of tobacco sold by the A. R. Robertson House for the season just closed: Number of pounds sold 1,781,320; amount of money received for same \$139,698.68; average per 100 pounds \$7.84.

T. B. ROBERTSON, Secretary.

Burley House

Agreeable to your request I hand you herewith a statement of the tobacco sold at the Burley House for the season just closed: Number of pounds, 514,160; amount of money received for same \$30,674.63; average per 100 pounds \$5.98.

WEDDING OF INTEREST

The following from the Winchester Sun of March 20th will be of interest to many here where Miss Hawkins often visited.

Miss Harriett Dudley Hawkins, of this city, and Mr. Kidwell Grannis, of Dayton, O., were married this morning at the Baptist church, Elder J. T. Sharrard, of Paris, formerly pastor of the Christian church, of this city, officiating. Mr. Grannis is a successful contractor of Dayton, O., formerly living here, and is the son of B. S. Grannis, a prominent attorney of this city and at the present a candidate for the Democratic nomination for Commonwealth's Attorney of this district.

Miss Hawkins is a daughter of Mrs. Iolene Hawkins and is a very attractive and popular young lady. She is well known throughout Central Kentucky, where she has frequently visited in different places. The church was beautifully decorated and the attendants and ushers who participated in the wedding were Miss Edna Gaitskill, of Winchester, and Miss Clara Simonson, bridesmaids; Mr. Robert Acker, of Paducah, best man; Mr. Charles Andrews, Mr. T. B. Lyons, Mr. Clifton Taylor and Dr. H. C. Dudley, ushers, while the wedding march was played by Miss Elizabeth Andrews.

Beside these the following from a distance were here in attendance: Mrs. J. E. Gaitskill, Miss May Ewing Gaitskill, Mrs. J. B. Hampton and Mrs. Joseph S. Lindsay, of Winchester; Mr. and Mrs. T. C. Ashton, of Parkersburg, W. Va.; Mr. and Mrs. Prentiss Ashton, of Charleston, W. Va.; Mrs. Edwin Matthews, of Lexington; Mr. Aylett Stockwell, of Lexington, and Mr. Rolla Foster, of Harlan.

BUSINESS CHANGES HANDS

The Tipton Bottling Works last week sold the plant here to a corporation known as the Mt. Sterling Bottling Co., Incorporated. Mr. A. J. Gatewood is President of the new corporation and Mr. Thos. Kennedy is Secretary and Treasurer. Mr. Gatewood will have charge of the selling end of the business while Mr. Kennedy will have charge of the books and the financial end of same.

The same employees will be retained but we understand several new drinks will be manufactured. Under the new management we are sure the business will enjoy an increase.

NEW REAL ESTATE AGENCY

Messrs. C. K. Oldham and John S. Frazer have formed a partnership and will engage in the real estate business. The firm will handle all kinds of real estate for sale as well as rent and already they have considerable property listed with them. Both are well known gentlemen with many friends throughout this section and we are sure they will make a success of their new venture.

BREAKS LEG

The many friends of Mr. W. B. Greene will regret to learn that he fell last Friday while driving some hogs near Spencer Station and broke his left leg. While he has suffered considerable pain, the physicians feel that he is getting along as well as could be expected. Mr. Greene is one of the best known stock buyers in this section of the State.

HAVE BETTER QUARANTINE

State Sanitary Board at Frankfort Issues New Order for Montgomery County.

In order to further protect the cattle industry from the dreaded foot-and-mouth disease, the State Live Stock Sanitary Board has issued the following order:

"Cattle, sheep or other ruminants or swine intended for stocker, feeder or breeding purposes may be moved from county to county in restricted area, provided they are inspected in the county in which the movement originates, by a Federal, State or County Inspector and upon entering the county of their destination they are re-inspected by an authorized inspector; but such animal or animals shall be held in quarantine for a period of two (2) weeks after arrival at destination."

This rule also applies to cattle shipped in from another State. Montgomery county is a portion of that part of the State classified as "restricted area." The order prohibiting "court day sales" is still in force and local authorities are ordered by the Board to rigidly enforce the above quarantine order.

This order meets almost in its entirety the requirements for a more stringent quarantine as asked for by local farmers and stockmen in the resolution adopted at the mass meeting held at the Court House Monday afternoon. Few realize the seriousness of the disease which is fastening itself on the live stock of the State and while the quarantine order works a hardship on a few speculators and dealers, it is necessary for the ultimate good of all concerned that stringent adherence to the same be observed.

DIES AT HOME OF SON

Mr. Phillip Henry Bittinger, of Hanover, Penn., died at the home of his son, Harry S. Bittinger, on Clay street, this city, Saturday morning after a two weeks' illness of Bright's disease and septic pneumonia. Mr. Bittinger was 83 years old, and during the Civil War served for four years under General Kilpatrick in the Union army.

His wife died many years ago and for the past five years Mr. Bittinger has been staying at the Old Soldier's Home at Dayton, O. He came here about a month ago to visit his son, where he was taken ill.

Besides his son, Mr. Bittinger is survived by a daughter, Mrs. L. A. Whamler, of York, Pa. He was a member of the Methodist church.

The remains were shipped to his old home in Pennsylvania Sunday for burial.

The increased attention now given to religious work at our colleges is illustrated by a successful series of religious meetings that have been held at Centre College and the Kentucky College for Women in Danville. The Rev. Thomas White, the Presbyterian student-pastor at the University, conducted these meetings.

Every morning for a week he spoke to the students of K. C. W. and of Centre College at their respective chapel periods on moral and religious problems that espe-

cially concern young women and young men. He also held conference periods, during which he talked personally with individual students. It is believed that the result of these meetings will be a permanent strengthening of the religious vitality of the two educational institutions.

CITIZEN OF MILLERSBURG IS MYSTERIOUSLY MISSING

W. P. Shanklin, one of the wealthiest and most prominent citizens of Millersburg and a Magistrate in District No. 1, Nicholas county, has disappeared from his home, and an extensive search for him has been instituted by his family and friends. Mr. Shanklin, who is a director in the Citizen's Bank of Millersburg, drew \$100 from the bank last Tuesday morning, telling the cashier he wanted it for incidental expenses. It was learned afterward that he had purchased a ticket in Paris to Dallas, Tex., but a telegram from that place said there was no trace of him there.

Wednesday his son, Glenn, received a post card from his father postmarked Lexington, telling him to take care of his farm, as his father would never return. Mr.

Shanklin is an elder in the Millersburg Presbyterian church and one of the founders of the Millersburg Bank. His two brothers, J. T. Shanklin, of Flemingsburg, and A. S. Shanklin, of Mayslick, are assisting in the search. He has a wife, two daughters and a son.

FEDERAL AID FOR KENTUCKY

Commissioner of Roads R. C. Terrell, who accompanied Gov. McCreary to Washington, returned to Frankfort Thursday pleased with the success of his trip to ask for Federal aid in road construction in Kentucky this year.

Commissioner Terrell said the Department of Agriculture consented to detail four highway engineers for duty in Kentucky. They will be assigned to designated territories, each probably being ten counties to travel over. They will supervise the road construction under the State-aid plan for the State Department of Roads, and give advice to county engineers, just as Government farm demonstrators aid the agriculturists.

Besides these four field men assigned to the State, Gov. McCreary and Commissioner Terrell secured permission to send the excess bridge work to the Bureau of Highways, Washington. All bridges costing more than \$500 are built under plans and specifications furnished by the Commissioner of Roads, and this work, in addition to the highway plans under State aid, will crowd the office at Frankfort. The work which cannot be got out in the office at Frankfort without hampering its other activities will be sent to Washington. Commissioner Terrell said this will save his office the expense of three extra engineers.

RE-BUILDING BEGUN

Work has just begun on the rebuilding of the big gymnasium of Centre College, of Danville, that was burned in November. The foundation and some of the walls of the old building are uninjured. The debris has been cleared away. Lumber, steel, brick and stone for the new building are ready to be put in place. The work is being pushed steadily forward so as to be completed by early summer.

It will be remembered that the gymnasium building that was burned in November was itself a new building, not having been formally thrown open for use. It was the largest and most complete building of the kind in Kentucky, and was equalled by only a few in the South. It is being rebuilt on the same plan, except for a few minor improvements.

FRECKLES

February and March Bring Out Unsightly Spots. How to Remove Easily.

The woman with tender skin dreads February and March because they are likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle.

Fortunately for her peace of mind the recent discovery of a new prescription, othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine should remove them.

Get an ounce from The Bassett Drug Company and banish the freckles. Money back if it fails.—Adv.

WRITERS AND ORATORS

The man at the desk sometimes sways the multitude. He does not do so as often as does the impaled orator, but there are many persons who see things through the eyes of the capable writer. Balzac says: "We see that which we think." We likewise see those things of which we ourselves are convinced.

No stronger argument as to Billy Sunday's sincerity could be adduced than the numbers of men and women who are led by his strenuous preaching to see things as he sees them. Human thought is as powerful as electricity and there is no one without a certain degree of forcefulness. He who writes forcefully thinks forcefully, though the converse is not always true. But the man at the desk can not stir up enthusiasm among the masses, of course, like the gifted orator or evangelist, who has his crowd right before him and knows from long experience the tricks and manners which appeal to the average human mind.—Ex.

"Early to bed and early to rise does very well for sick folks and guys," says George Schneck, "but it makes a man miss all the fun till he dies and joins the stiff that are gone to the skies. Go to bed when you please and lie at your ease, you'll die just the same of some Latin disease."

CLIPPINGS FROM THE SNAG-TOWN TORCHLIGHT

Elmer Smith arrived home safely this week from a pleasant visit to relatives at Bald Knob. While driving along the road near the Panther Creek school house on his way home he says he observed a very large black snake crossing the road in front of his horse. The reptile, he says, was so long that he was delayed at least a half hour in letting it pass.

The Snagtown Improvement Society met at the postoffice this week and took it on itself to improve the appearance of Charley Bryan's mule by shearing its mane and tail before the beginning of the Baptist Association on North Fork.

Capt. Jack Barnett, several times mayor of Snagtown, is a candidate for Governor. If elected he will be for all races, but more especially the horse and the human race. He is level-headed and well balanced and parts his hair in the middle.

Skinay Elliston has purchased a looking glass which is to be used when he wants to talk to himself.

"Dad" Schreengost, the Peavine Ridge pastor had had the benches in the church whitewashed in order that the public may look at the back of a man's pants and tell whether or not he attends church.

Leonard Boulton went over to the blacksmith shop at Rubycon this week and brought back a wagon load of old horse shoes, which he has hung up along the creek to give him good luck in fishing the coming summer.

The Possum Hill preacher announces that he hasn't got any political belief, and will vote according to the dictates of his conscience and his congregation.

Charles Ewell had his whiskers clipped off at the saw mill on Gander Creek today while trying to count the teeth in the saw.

The drove of snails that the mail carrier reported to have overtaken on Peavine Ridge five weeks ago, have arrived in Snagtown and this week they are passing the postoffice.

MT. STERLING TO CARLISLE

Postmaster A. B. Tilton of Carlisle has received the following letter in regard to the establishment of proposed automobile mail route from Carlisle to Mt. Sterling:

"Post Office Department,
Fourth Assistant P. M. General Postmaster,
Carlisle, Kentucky,

In reply to your letter of the 2d instant, relative to the proposed consolidation of star route No. 29416, Sharpsburg to Mt. Sterling, Kentucky, and 29420, Carlisle to Sharpsburg, Kentucky, and suggesting a schedule under which the service should be operated, it is requested that you state whether you would be able to secure a bid for the service as proposed at a rate of pay less than the present cost of the service. If so a statement from the prospective bidder as to the amount for which he would perform the service should be submitted. Jas. S. Blaksley,
Fourth Assistant."

Much interest has been shown in the proposed route by the citizens, and several prospective bidders have spoken to the Postmaster concerning the establishment of the route.

In order to make a reply at once to the Department. Postmaster Tilton wishes all prospective bidders to see him at once in order that he may submit their names.

The present cost of maintaining the two routes is about \$800 per year. The successful bidder will be allowed to carry both passengers and freight, and this should make the undertaking pay well.—Carlisle Mercury.

"\$235,591,350 is a lot of money."

"Is that the national debt?" "No, but it is a debt that this country paid last year."

"What for?"

"Fires. The fire losses in the United States each year are more than five times as numerous per thousand of population as those of Europe."

"Europe must have better fire-fighting equipment."

"On the contrary this country spends more than ten times as much money as Europe on fire departments and other forms of fire protection."

"How can the fire insurance companies stand such fire losses?"

"Only ably managed companies with immense resources can. It takes age, able management and nation-wide distribution of liability to succeed."

"Is that so? Wonder what company I'm in."

"Don't you know?"

"Haven't the slightest idea—never gave it any thought."

"Better begin; but if you are insured in Hoffman's Insurance Agency you are protected by the company of which there is no question. They only represent the BEST. That agency has been paying claims for 68 years—has met every honest obligation in that time—and when you think of the fires in only this county for the last century you get a pretty good line on the stability of the Hoffman Agency."

"Premiums high?"

"No higher than the others, and you get protection, prompt adjustments and fair treatment."

"Thanks for the tip. I'll 'Talk With Hoffman' at the first opportunity."

HOFFMAN'S INSURANCE AGENCY
Mt. Sterling, Ky.

The wholesale slaughter of good men, the starving of nations, the destruction of financial and industrial systems, and the consequent tears of millions of women do not appeal as the earmarks of an advanced civilization. Will universal disarmament follow in the wake of this carnival of crimson carnage and will the nations in the end become the Federation of the World? Yet it seems the world still is very far from universal peace and disarmament. And there are some who believe we will never reach that Utopian stage of civilization. But this world conflict eventually must convince all people that there is a better way. For the victor in this great war will be a big loser after all. Both the conqueror and conqueror will have fallen back many decades in the march of civilization and industrial progress.

JOE SKAIN KILLED BY WALDEN IN LEXINGTON

Joe Skain, one of the proprietors of the Phoenix Hotel, in Lexington, was shot and killed Thursday night in the private office at the hotel by Elias Walden, chief engineer of the hotel.

Walden had been drinking heavily, and had been laid off by Mr. Skain for thirty days. Thursday night Walden went to the hotel and passing into the office where Skain was seated, drew a revolver and fired two shots, one taking effect in the breast, and the other penetrating the brain.

Skain died instantly. Walden then turned the gun on himself and fired a shot through his own head. He was taken to the Good Samaritan Hospital, where he died early Friday morning.

Joe Skain was one of the best-known and popular hotel men in the State, and had hundreds of friends. He was a brother of John Skain, former Mayor of Lexington.

The tragedy created a great sensation in Lexington, when the details became generally known.

Mr. T. J. Thomas

SECOND DISTRICT
T. C. Quisenberry
C. L. Dean

THIRD DISTRICT
A. L. Tipton
E. B. Quisenberry

FOR CITY CLERK
Mr. Henry M. Ringo

CHIEF OF POLICE
Mr. John Gibbons
Mr. James C. Tipton

MR. JAS. C. TIPTON

The above named gentleman authorizes us to announce him as a Democratic candidate for Chief of Police of the city of Mt. Sterling, at the State Primary, August 7th, next.

For some years he has been a member of our local police force and on a number of trying occasions has shown that high degree of physical courage and cool-headedness so essential, yet so seldom found in officers of small cities. As a result he has gained for himself a most enviable reputation as a fearless and vigilant policeman. In the discharge of his duties he has always been energetic and capable and that he will therefore make an admirable Chief of Police no one acquainted with him doubts.

He promises, if elected, to enforce the law to the letter and being one of the best Democrats we have ever known, we present his claims to his fellow-Democrats and ask that they be given careful consideration.

MR. T. J. THOMAS

Mr. Thos. J. Thomas desires us to acquaint the voters of the county with the fact that he will seek the nomination of his party at the State Primary in August for County Commissioner in district No. 1, composed of the four wards of the city of Mt. Sterling.

Mr. Thomas belongs to a well known family of Democrats and has always been an active party man, giving liberally of his time and means in every campaign. Heretofore he has always been content to make a campaign for his friends and has never asked for political preferment for himself. He now feels that he has earned this recognition at the hands of his party. He is a business man of much experience, knows the needs of the county and promises, if elected, to give the people the best service within his power. We therefore submit his claims and ask for them due consideration.

MR. JOHN GIBBONS

Mr. John Gibbons, our present efficient Chief of Police, desires to again serve the people in that capacity and will therefore ask endorsement at the State Primary in August, when he will be a candidate for the Democratic nomination, with which party he has always affiliated.

As Chief of Police, Mr. Gibbons has shown himself to be a brave, level-headed man, who knows just how far to go and to within his legal rights and duty. His friends feel that the best proof he can offer for his future conduct, is the faithful manner in which he has endeavored to enforce the law in the past, and being clean, sober and honest and an ideal police officer, we ask that his claims be weighed with utmost care.

RELIGIOUS

Dr. W. R. Dye will hold services at the Episcopal church Thursday afternoon at 4:30.

Rev. Horace Kingsbury, pastor of the Somerset Christian church, will preach at the Christian church in this city next Sunday evening, March 28th, at 7 o'clock. Rev. Kingsbury preached at the Presbyterian church a few weeks ago to a large crowd and his sermon was very much enjoyed.

At the Methodist church Sunday morning the subject of the sermon by the Pastor will be "The Golden Rule In A New Setting." Sunday night the subject will be "The Folly of Feeding Pearls to Swine."

On next Sunday, the 28th, following morning worship, the membership of the Baptist church will be asked to decide on a location for their new church. The Church Building Committee will recommend and the church must decide whether or not they will approve their recommendation. Every member of the church, whether he be rich or poor or whether he has contributed anything or not, is requested to be present and participate in this, a most important matter to the church and city, remembering that all members of this congregation are entitled to the same privileges. This is to serve as official notice that every member is expected to be present and by their votes assist in the decision of a site for the new structure. At this time the greater part of the money required for use in the building has been pledged, and it is hoped that the full amount may be raised by the date named for the selection of the location. The new building, as is planned, will have a modern room for worship, Sunday School accommodations as well as arrangements for overflow audiences, a fine pipe organ, fine toned chimes, parlor, waiting rooms, library, and an apartment where he who seeks or the saints of God may enter, rest and pray. Let every member be on duty at this most important of meetings. In all cities there prevails to a greater or less degree, a moral and religious citizenship who wish to have a part in all laudable enterprises, and to all who have a desire in their hearts to share in this offering to Him, for His honor and glory, they can indicate same to Dr. W. R. Thompson or W. A. Sutton with the full assurance of grateful appreciation by the committee and congregation as well.

All members of the Church Building Committee of the Mt. Sterling Baptist church, are requested to meet at the church on this, Wednesday, evening, for the purpose of considering the question of a location for the new church to be recommended to the church on Sunday morning, following the hour of worship. Any member of the committee providentially hindered may be represented by proxy.

RETURNED TO REFORM SCHOOL BY COUNTY JUDGE

Jesse Smith, a white boy, 17 years of age, who had been working for Harry Hadden, in this county, disappeared a few days ago, taking with him a suit case belonging to Mr. Hadden containing wearing apparel. No trace could be gotten of the boy, and when next heard from he had attempted to pass a forged check on Mr. Hadden at Pugh, Graves & Co.'s store. The clerk became suspicious and the boy skipped, but was later arrested in Menefee county and the clothing recovered. The boy was brought to this city, where his examining trial was held, and he was ordered returned to the Reform School at Lexington, from which institution it was learned he had escaped some time ago.

Made to Make Good

NOT INJURIOUS

"The stoutest intellect," observes the Chicago Tribune, "is not damaged by taking it to church occasionally."

When you hear a man—usually it is a man—condemning the stupidity of the pulpit as a defense for never going to church find out how he spends his Sundays and in nine cases in ten the company he seeks is duller than that in which he would find himself in any church.

A man who frankly yields to the temptation to play golf, or even to go fishing, on Sunday doesn't add lousy to his list of sins. The fellow who laws his non-church going upon the dullness of the preacher gets two black marks from the pen of the Recording Angel.

Better go fishing occasionally when the spirit will not be quelled, and to church occasionally, or fishing every time and to church not at all, and be honest, than to try to shoulder upon the pulpit the responsibility for your preferring a rod and reel, a bag of golf sticks, an automobile or a quiet little poker game.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Calarrr. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Calarrr being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for list of practitioners who fail to cure.

HABITS

Man is a creature of habits. We succeed or we fail as we acquire good habits or bad ones. A good habit is a lubricant that reduces the friction of life to a point where progress is possible. Even so called bad men must have good habits or they would cease to exist; but the more good habits a man had and the fewer bad ones, the greater is his power and capacity for good to himself and humanity. And let this fact stand: A man helps himself only as he serves humanity. Man is a creature of habits. The habits he acquires soon become his master—they put him to bed at night at a certain hour; they regulate his sleep; they call him in the morning; they dictate his breakfast; they send him to his work, and whether his work be joyful work of joyless labor has all been decided months or years before, by his habits. Where and how we spend our evenings is a matter of habit. Our thoughts form our actions, our actions form our habits, and our habits form our character. Some of the habits that force a man to accept a poor situation when he would like a good one, are the Cigarette Habit, the Beer Habit, the Bromide Habit, the Pasteboard Habit, the Gossip Habit, the Dawdling Habit, the Procrastination Habit, the Grump and Grouch Habit. To secure a good situation and hold it is a question of right habits.

The time for this kind of work is now at hand, and horsemen should have their cards ready at least two weeks before the April Horse Show.

At no time within the past several years have conditions looked more favorable for stock breeding than it is this year. There is an unusual demand for horses and mules of all kinds, and the Montgomery county product has always ranked among the very highest.

KILL FLIES NOW

Flies cost the United States \$350,000,000 annually.

Now is the time to kill flies—before the "hold-overs" propagate. One fly killed now means millions less next summer.

This winter's flies are the parents of next summer's destructive swarms.

Flies damage property and are dangerous to health. Now is the time to swat them.

A general fly slaughter this spring, followed by another vigorous "clean up" campaign, will leave even fewer flies than in 1914.

POWER OF ONE MAN

One man can do a great deal when he happens to be a forceful and persistent individual. For instance Russia's withdrawal from the vodka business is due primarily to the activity of one man—and he was no great statesman either. This man, Tscheshoff, a Russian peasant, within his own circumscribed sphere observed the effect of drink upon his neighbors. He saw how entire families were being ruined by vodka in order that taxation might be simple. His first outreach was to become a member of his local assembly at Lnmara, where he proposed that the tax should be made up in some other way. Next he was sent as a member of the Duma at Petrograd and there he secured a vote to the same effect. The Council of State, however, rejected the Duma's vote. Undaunted, the little peasant sought and obtained an interview with the Czar. So well did Tscheshoff plead that the Czar decided to study the effect of alcohol on national health and efficiency. He became convinced of the truth of the peasant's claim that vodka was destroying the best powers of the nation. The Czar entrusted the abolition proposal to his Minister of Finance. The minister saw no other way in which the tax could be so simply raised. The Czar dismissed him and appointed a new minister, who agreed with the Czar to give up the vodka revenue of \$350,000,000 to \$500,000,000. Other forms of taxation are now being devised. Meantime the bank deposits of the people are increasing.

Tscheshoff when he began his anti-vodka campaign was neither wealthy nor famous. On the contrary he was poor and obscure. Nevertheless, he is one of the wonder workers of the age, having accomplished a task that millions of other men never would have attempted because they looked upon it as a sheer impossibility.

STATION SAFE ROBBED OF \$200 AT FRANKFORT

Cracksmen blew the door off the safe in the ticket office of the Union Station at Frankfort some time after midnight last Wednesday night and got \$200, all the money in the safe. They left no clue. They pried open a back window for entrance and the workmanlike manner in which the safe door was removed with nitro-glycerin leaves no doubt in the minds of the police that the job was done by professionals.

This is the second time the station has been broken into within the last two months. On the other occasion one of the men arrested protested that he was out of work and smashed in the door of the waiting room to find a warm place to spend the remainder of the night.

GETTING THE HABIT

Farmers and townspeople all over the country are rapidly adopting the new policy of using writing paper and envelopes with their names and addresses neatly printed thereon.

It has many advantages. It prevents the numerous errors in the spelling of names, insures correctness of address, and guarantees the prompt return of your letter in the event of non-delivery.

It is no more expensive than the buying of stationery in small lots in the old way, and adds a distinctive air of respectability and refinement to every home.

It is a good thing, and has come to stay—and grow.

Speak softly, and the world listens. Howl, and you get a kick.

Nervous?

Mrs. Walter Vincent, of Pleasant Hill, N. C., writes: "For three summers, I suffered from nervousness, dreadful pains in my back and sides, and weak sinking spells. Three bottles of Cardui, the woman's tonic, relieved me entirely. I feel like another person, now."

TAKE

Cardui

The Woman's Tonic

For over 50 years, Cardui has been helping to relieve women's unnecessary pains and building weak women up to health and strength. It will do the same for you, if given a fair trial. So, don't wait, but begin taking Cardui today, for its use cannot harm you, and should surely do you good.

WHAT A GROUCH WILL DO

If you ever have a grouch, get rid of it—shake it off in a hurry—for it is about your worst enemy.

A grouch will turn the sweetest disposition to vinegar.

It will set you against your fellow men.

It will make you a nuisance to other men.

It will impair your intellect, interfere with your appetite, cripple your digestion, and make you an object of ridicule in the eyes of other people.

It will retard your work, drive your friends from you, cause your

children to fear you, and your relatives to shun you.

It will turn the brightest day into a murky fog, obscure the sun which God gave you to enjoy, and transform the sparkling waters of purity into the bitterness of gall.

It will strip you of ambition, pull you down to the depths, and write "finis" to an otherwise brilliant career.

It will chill the whinny of your horse, kill the affections of your faithful dog and send your cat scampering to cover.

It will rivel the bellow of a bull, put your fowls to flight, and make music of the grunt of a pig.

It will make you a hyword in the community, an all around nuisance to humanity, and an object of disgust to yourself.

It is full of peril and without a single grace, for it is the hand of the devil beckoning you down to hell.

Get rid of the grouch.

IN OTHER WORDS

The Lord helps those who help themselves. Or, to put the same statement in other words, those who advertise.

Discriminating advertisers select a medium which reaches the right spot. Or, to put the same statement in other words, they choose The Advocate.

"What is international law?" inquires a local reader of the war news. Nothing, brother, quite nothing.

BUYING AT HOME

There is a "buy at home" contest being waged in the papers of the entire country. There are many excellent reasons given. No better samples than these tea can be given.

First—Keep the money at home. Second—It's a powerful help to the local industries.

Third—It helps those who help us, as it is our duty to do.

Fourth—Home merchants and their goods are more reliable, their goods are of higher quality, and they sell them to us at as low, if not lower prices than those charged by mail order houses for goods of inferior quality.

Fifth—Takes much less time, and is more convenient in every respect.

Sixth—Home merchants sometimes give credit, but mail order houses never do.

Seventh—Brings about a stronger spirit of co-operation, understanding and friendship among everybody in home town and vicinity.

Eighth—And also bring greater prosperity to every person in our home town and vicinity.

Ninth—Can handle and closely examine merchandise before buying and can quickly exchange later if desired.

Tenth—It is for the good of you and yours, and is for others and theirs thousands of miles away, and is strictly in accord with the soundest business principles.

MRS. SIDNEY G. CLAY IS GRANTED A DIVORCE

A decree was entered in the Bourbon Circuit Court last Wednesday morning by Judge Roht. L. Stout, granting a divorce to Mrs. May Stoner Clay from her husband, Mr. Sidney G. Clay, of Bourbon county. The divorce was asked for on the grounds of "cruel and inhuman treatment of the plaintiff by the defendant as evinced a settled aversion for the plaintiff." Mr. Clay made no resistance to the granting of the divorce, and the only proof taken was the depositions of Mrs. Clay, the plaintiff, and of Dr. Martha Petree.

CONSOLIDATED SCHOOLS

Editor Sentinel-Democrat:

As one most interested in the education and uplift of the youth of our own Montgomery county, I make an appeal to the citizens of this county and especially those interested in the proposed Consolidation of Rural Schools. In the beginning, I think we can all agree, that the day of the one room rural school is past and gone. It is no longer the center of power, as it once was in our community life, and we hear it condemned on all sides by both educators and patrons. But why—First in the wonderful progress of the world, scientifically, religiously and educationally, the Rural life has had its share of wonderful changes. The country life of today is no more like that of fifty years ago than is the cultivator like the old time plow. Changes have not only come in material things but also into the heads of farmer boys and girls, and parents as well seemingly—and they seem not to be satisfied with being like city folks, with even greater possibilities with their ideal surroundings, for the pleasures and the things that count for human happiness, but all are drifting silently but surely towards the town or city, socially, religiously and educationally. The foremost men and women of our age are continually calling attention to this fact, and imploring the rural folk to awaken to their opportunities and make country life so attractive and pleasant that we will not only keep our own young boys and girls but will even allure some of the city boys and girls as well. The school and the church, our great social centers, for causes not explainable have not kept pace with the progress and now in driving out over the beautiful farm lands of Kentucky, over our model highways, by our up-to-date homes, in our touring car, we come upon the little old fashioned insignificant looking one room school, a disgrace to the surrounding country with all its modern equipped homes and barns. Even the cow and the horse have not been forgotten and deserve more attention than the little ones whom we have under our supervision.

Friends it is high time we were doing something. At least we can begin to think. Other states and countries have successfully solved the problem and those who read may learn that the proposed Consolidation plan is not an experiment, but the only solution to our rural school problem. The first thing we think of is the cost, that is the first question of any business man or woman of today and is a legitimate one. But when we come to this problem of the cost of so great a work as the education of our country children, the future citizens of Montgomery county let us shut our eyes, open our hearts, and forget all else, save raising the standard of rural life and giving to the country youth the same opportunities as to the city youth. Those whose vision is broad enough to see the question in all of its force and helpfulness must shoulder the burden and carry the problem to a solution. We are all too prone to think in our own selfish way that all the good will go to a few, and that the workers are a few, and that the workers are after laurels and benefits for themselves and their own. This is one thing which will benefit all alike, both rich and poor, for education is the slogan for every parent, at all places and at all times, and the farmer must learn to be as progressive in educational matters, as he is learning to be in farming matters. When farmers learn to get their heads together and work together, "the world will be theirs, and the fulness thereof." Farmers have not proven themselves good financiers until recent years when they are coming into their own, and still there is plenty going to waste. Had you ever thought that in many places, our school taxes are being thrown away absolutely. Our buildings do not meet the demands, we have no special standard for our schools, no attractiveness, overworked teach-

ers, and numerous other things, detrimental to the enrolling of our school list, so consequently only about one third of our children are getting the benefit of our school tax. Is that good finance? Some say, oh, I've already educated mine, let the other fellow do the same or, "It suits me well to send to town." Perhaps all this is true, but can we live for self alone? When Paul advised his followers to "Bear ye one another's burdens," he did not mean in a physical way. Think of the numbers of good people who own no land in our communities but who have children to educate, the very brightest and best of our boys and girls, and are almost money dependent on the land owners for schools and churches. This is truly a missionary work and in our zeal for such matters, we must not only look up and out over the fields, but down and over our own little field, right here at home, and we'll be surprisingly shocked to think we've looked long for a chance to benefit the world, and have helped much perhaps, but have failed to see the greatest need that of our own less fortunate neighbor. This consolidating school can be run for the same room schools can be run for the same number of months on the same amount of money that our one room schools are run on, but with an air of efficiency, respectability and competition not known to the one room school. The transportation problem is the greatest one that confronts us. But that can be solved in many ways not costing in the best way possible over (\$8 or \$10) eight or ten dollars to our well to do formers. Whom we hope are Christians and will count it a privilege and a pleasure, when they see the benefits to their farms, their children and their communities.

"Subscriber." We have taken the liberty of reproducing the above letter which appeared in the Sentinel-Democrat in its last issue as we believe that many of our readers will appreciate the sentiment, sound logic and good sense of same and will put their shoulders to the wheel and help make the consolidating school a reality. This movement was first agitated in the columns of the Advocate and we hope to eventually see the plans matured and carried to a successful termination but this can only be done by the united effort of everyone interested in education.

There's a deal of peace talk floating around in this country, but apparently our voices fail to carry across the blue expanse of the briny deep.

Let some fellows sit down on your doorsteps and it won't be long until they own the house.

Telephone Saved Child's Life

One of the children fell into a water tank on an Alabama farm and was rescued unconscious and apparently lifeless. The frantic mother rushed to the telephone and called the doctor six miles away. He told her what to do and started at once, but before he arrived the child was out of danger.

The protection of women and children is only one of the chief values of the telephone on the farm.

Paducah Woman Says Life Had Become An Actual Burden Before She Used Andes—Wants Everybody to Know About It's Good.

Mrs. Nellie Mabley, living at 612 River street, Paducah, recently made the following statement:

"I have suffered with catarrh and have been a nervous wreck for a long time. I imagined I had every disease that a human being could have. I was whimsical at times, and at other times, melancholy. I was a very unhappy woman; my condition finally grew serious and alarming. I could not perform my household duties, was unfit for anything and life became a real burden. "My digestion was poor, the food I ate generally caused nausea. I frequently had headaches, pains in the back and dizziness. My circulation must have been bad, for I nearly always suffered from cold feet, and contracted cold easily. I could not sleep and would awaken in the morning as tired and as worn out as when I retired and life became one unbroken period of misery.

Mrs. S. F. Deal, who has been very ill with gripe, is slowly improving.
